<p>STATUS: J. I. Case acquired the property in 1962 and operated there until 1987. Great Dane Trailers currently operate the property. Some adjacent properties have been effected by groundwater contamination that has migrated from the site. Environmental issues of concern at the site include asbestos containing materials, underground storage tanks, PCBs, electrical equipment, sub-surface waste disposal areas, above ground storage tanks, and groundwater issues. While a consulting firm hired by J.I. Case has prepared preliminary reports, a comprehensive Remedial Investigation (RI) is necessary. The RI has been received and is being reviewed.</p>
